FEATURES AND BENEFITS

Ultra-thin Matte White Finish

With 6mm super thin, smooth, and warm contemporary matte white finish to give you a sleek and premium bathroom design.

Durable Solid Surface Material

A composite material engineered from natural minerals and resin to give a solid, stable, seamless and non-porous surface yet still lighter than conventional stone.

Hygienic Easy-Clean Texture

100% waterproof and germ-resistant with renewable and repairable attributes that enables easy removal of stubborn stains using standard abrasive cleanser and scouring pad.

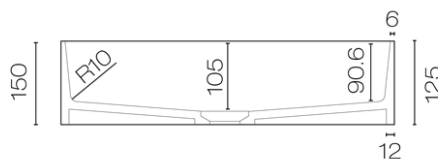

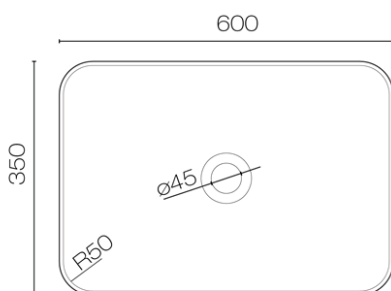

Eco-friendly & Available in Organic Shapes

Produced in environmentally friendly and sustainability-compliant factory conditions. Also available in exciting organic shapes such as round, oval, rectangle, and ellipse.
